CTFd.js

CTFd.js (<https://github.com/CTFd/CTFd.js>) is a JavaScript library intended for themes to interact with the CTFd API to make it easier to focus on the rest of the theme.

CTFd.js is available on npm as `@ctfdio/ctfd-js`.

CTFd.init()

Initialize the CTFd class object with the data needed to access the API and also subscribe to the Server Sent Events (SSE) notification endpoints (`/events`).

CTFd.config

Access the CTFd configuration variables that were set during initialization.

CTFd.pages

CTFd REST API wrappers used for each of the main CTFd pages

CTFd.fetch()

Call the CTFd wrapper for `fetch`

CTFd.ui

Various utility functions that can be useful for improving the CTFd UI

`CTFd.init()``CTFd.config``CTFd.pages``CTFd.fetch()``CTFd.ui``CTFd.lib`

CTFd . lib

Vendored versions of third party libraries for easier use
