Overview

CTFd has many different configuration values that can be configured from within CTFd so that you can customize CTFd to suit your needs.

The Config panel is located in the `/admin/config` page.

A screenshot of the CTFd Configuration page. The page has a dark header with the CTFd logo and navigation links: Statistics, Notifications, Pages, Users, Teams, Scoreboard, Challenges, Submissions, Config, Services, and Plugins. The main content area is titled "Configuration". On the left, there is a sidebar with a list of settings categories: Appearance (selected), Accounts, Custom Fields, MajorLeagueCyber, Settings, Security, Email, Time, Legal, Backup, User Mode, and Reset. The main content area shows the "Appearance" settings. It includes a "Competition Name" field with the value "CTFd" and a description "Competition name displayed instead of a logo". Below this is a "CTF Description" field with the value "Description for the CTF" and a description "Description for the CTF". An "Update" button is located at the bottom right of the form.[Previous](#)
