Visibility Settings

Challenge Visibility
Control whether users must be logged in to see challenges
Private

Score Visibility
Control whether solves/score are shown to the public, to logged in users, hidden to all non-admins, or only shown to admins
Public

Account Visibility
Control whether accounts (users & teams) are shown to everyone, only to authenticated users, or only to admins
Public

Registration Visibility
Control whether registration is enabled for everyone or disabled
Public

Pause CTF
Prevent users from submitting answers until unpaused. Challenges can still be viewed.

From the **Settings** tab in the Config page, Admins are able to control the following:

1. Challenge Visibility
2. Score Visibility
3. Account Visibility
4. Registration Visibility

Challenge Visibility

Admins have the option to keep challenges in **Public**, **Private** or **Admins Only**.

ACCOUNT VISIBILITY

Control whether accounts (users & teams) are shown to everyone, only to authenticated users, or only to admins

Public

This setting should generally be the same as Score Visibility to avoid conflicts.

Registration Visibility

Control whether registration is enabled for everyone or disabled

Public

Pause CTF

Prevent users from submitting answers until unpause. Challenges can still be viewed.

If **Admins Only** is selected, users aren't able to access any challenges and will see a forbidden page like the screenshot below:

On the other hand, the **Public** option allows registered and non-registered users to view the challenges while the **Private** option only allows registered users to view the challenges.

Score Visibility

Once scores are available, Admins can control whether to show scores as **Public**, **Private**, **Hidden** or **Admins Only**.

Hidden

Admins Only

This setting should generally be the same as Score Visibility to avoid conflicts.

Registration Visibility

Control whether registration is enabled for everyone or disabled

Public

Pause CTF
Prevent users from submitting answers until unpaused. Challenges can still be viewed.

- Public: Scores can be viewed by everyone
- Private: Logged in users can view the scores
- Hidden: Non-Admins cannot view the scores and will have a forbidden page prompt
- Admins Only: Scores can only be viewed by Admins and the Scoreboard link will be removed from the navbar

Account Visibility

Control visibility of user's and team's scores, solved questions, percentage of questions solved, etc.

Score Visibility
Control whether solves/score are shown to the public, to logged in users, hidden to all non-admins, or only shown to admins
Public

Account Visibility
Control whether accounts (users & teams) are shown to everyone, only to authenticated users, or only to admins
Public

Public
Private
Admins Only

- Public – User accounts are visible to everyone
- Private – Only registered users can see other account information
- Admins Only – Accounts are only visible by Admins in the Admin Panel

⚠ CAUTION

Score Visibility and Account Visibility should generally be the same to avoid conflicts. If they're different odd situations can occur where a user's score can be seen on their profile but not on the scoreboard.

Registration Visibility

Allows Admin to control if registration is available to the **Public**, **Private** or **MajorLeagueCyber Only**.

The screenshot shows the CTFd Settings page with the 'Registration Visibility' dropdown menu open. The menu options are Public, Private, and MajorLeagueCyber Only. The 'Public' option is highlighted with a blue background. A red arrow points to the 'Public' option from the left. The 'Update' button is visible at the bottom right of the dropdown menu.

Update

- Public: Registration is public and open to everyone
- Private: Registration is disabled and users can only login with an existing account or if an account is created for them
- MajorLeagueCyber Only: Users can only login if they have an account on the MajorLeagueCyber Event Tracker
